Amendment to Chapter 11 Houston Fire Code 1103.8.1

After January 1, 2017, as a battery-operated single-station alarm is replaced, that smoke alarm shall be replaced with a tamper-resistant battery-operated single-station smoke alarm. Provided, however, nothing in this section shall require an owner to replace an operational battery-operated single-station smoke alarm. For the purposes of this provision, a tamper-resistant battery-operated single-station smoke alarm shall mean a sealed, single-station smoke alarm with a long-life lithium or similar battery.

ATTENTION

Beginning January 1, 2017, in the city of Houston, any time a single-station (9-volt) smoke alarm gets broken, stolen, or stops working, it must be replaced with a new 10 year sealed, long-life tamper-resistant alarm.

See reverse for 10-Year Sealed Battery Alarms
10-Year Sealed Battery Alarms

**Dual Sensing**

**Smoke & Fire Alarm - 10 Year Sealed Battery**
- Sealed 10-Year Battery
- Universal Smoke Sensing Technology®
- Combines the benefits of both Photoelectric & Ionization technology
- Responds quickly to fast-flaming and slow-smoldering fires
- 5-1/2” diameter

**Product Details**
- 10 year sealed lithium battery with Ionization sensor
- Hush button, test button and power indicator
- 5-1/2” diameter
- Interconnectable with up to 24 device
- 360° mounting plate with tamper resistance
- Tamper-resistant, UL Listed

**CO/Smoke Alarm Combo - Sealed Lithium Battery**
- 10 year with Photoelectric & Electrochemical sensors
- Recommended for use in Kitchen
- 10 year CO sensor life
- 5-1/4” diameter
- Single post mount, UL 217 and UL 2034 Listed

**Smoke & Fire Alarm - 120V w/Sealed Lithium Battery Backup**
- 10 year sealed lithium battery with Ionization sensor
- Test/Hush button feature, 2 LED display indicators
- 5-1/2” diameter
- Interconnectable with up to 24 device
- 360° mounting plate with tamper resistance
- Formerly 0910
- Tamper-resistant, UL Listed
